THE HEARTRIDGE ADVANTAGE

Built to last with a 30 Year Surface Guarantee you can feel at ease knowing your floors will stand the test of time.

Strong enough to endure even under the pressure of light traffic commercial use, Luxury Vinyl Planks will perform for decades.

Inspired by timber flooring, each Luxury Vinyl Plank is separated by a Micro Bevelled Edge to add a genuine finish.

A low gloss finish protects and highlights intricate embossing, so your floors glow with the natural beauty of timber.

Our Loose Lay flooring system is quick and easy to install using our step-by-step guide.

Each plank is intricately embossed and features a micro-bevelled edge for that added element of realism. The 0.55mm wear layer will help your floor stand up to the tests of daily family life. Installing this Luxury Vinyl Plank is incredibly simple, and the end result is a floor that is soft underfoot, offers acoustic sound reduction and looks like a real timber floor, whilst being easier to clean and maintain.

Roll Size	10 m^2
Density	700 kg/m^3

To achieve the rating of 196 Sd, for Dunlop Advantage 3, the product must be installed with a 200 micron plastic sheet.

As more people choose multi-level residential living, the issue of sound insulation has never been more important. Whether it's in a townhouse, apartment, or two storey home, the sound of footsteps, moving furniture, or falling items can be annoying.

To tackle this problem Dunlop has developed Advantage 3 a rubber/cork recycled hard flooring underlay that delivers outstanding acoustic performance that easily surpasses the industry standard set by the National Construction Code (formerly known as BCA) supporting your new floor for many years to come.

That's why Dunlop Advantage 3 is a sound choice.
