# HEARTRIDGE

FLOORS BY DUNLOP

The Riviera Oak range of click timber is designed to allow your home to be transformed by the distinctly sophisticated look and feel of an authentic timber floor. This range has been designed to the highest standards of manufacturing and comprises a Valinge 5G click lock, micro-bevelled edges, and a brushed and lacquered surface, making it a floor worthy of the finest home.

Riviera Oak is backed with a lifetime residential structural guarantee and twenty year surface finish guarantee, so that you can be assured that your Heartridge floor will remain beautiful for many years to come, always making your space a place to come home to.

Timber is a natural material and variations in colour, texture and presence of naturally occurring features are expected. Final product will exhibit variation from sample material. Timber flooring will react to direct sunlight, moisture and humidity in its environment and this must be managed by the homeowner.
