STABILITY

WOOD FLOORING IN ALL IT'S GLORY

Extra wide boards in

The Nature's Oak range uses a character-enriched grade of genuine European Oak, designed to bring the features of the forest to your floor. These rustic features are matched with a brushed and textured matt surface for a classic timeless look and feel. Micro-bevels on the long side, and a palette of contemporary colours provide an inspirational platform for any interior.

Uniclic® glue-free installation system

- Fastest, easiest & strongest joining system in the world
- Can be walked on during and immediately after installation

Full accessory range

- Closely matched accessories for a beautiful finish

Genuine European Oak

- Nothing surpasses the appeal of a wood floor

Wear warranty

- A beautiful finish for years to come

timeless designs

Nature's Oak planks have superior stability thanks to a plantation hardwood core. All the planks are brushed and finished with 7 scratch, wear and stain resistant layers of high performance European lacquer for a lifetime of enjoyment.

Manufactured to the highest standards using materials sourced from sustainably managed resources.

Low maintenance

- Easy to clean
- No oiling required

Scratch resistant

- More resistant to scratching, scuffing and staining thanks to a strong, protective wear layer.

Environmentally friendly

- Produced from sustainable materials and resources
- Low emission profile

Structural warranty

- For peace of mind

Grading

Nature's Oak contains a lively level of variation in colour and grain structure. Planks have been selected with large filled knots to provide an authentic "forest to the floor" charm.

Colour

lively variation

Knots (measured in accordance with EN311)

max. 80 mm, qty per panel - no limit

Sapwood

allowed

Medullary rays

allowed

It's natural

Timber is a natural product and includes a selection of knots and other features in line with the beauty of Oak. Colour and grain variation from the sample, and within the floor, is to be expected and distinguishes your Nature's Oak as real, natural timber.

Wood flooring is not colour fast. Whenever samples or flooring are exposed to natural light, they will change colour.

There will always be slight noise associated with any wood flooring systems, this is a normal part of wood flooring and may vary with the climate.

A timber friendly indoor environment

For new dwellings a timber floor should be installed once window coverings are fitted and within two weeks of occupation, so that the floor can experience normal interior conditions. Abnormal interior conditions may lead to cracking, shrinking, cupping or other distortion of the wood flooring which is not covered by warranty.

To retain the character and beauty of real timber flooring ensure that you always take the necessary care and maintenance outlined in our product documentation.

Accessories
